INDEX OF AUTHORS AND PAPERS

Adler, J., Bootstrap percolation (*Minireview*) 171 (1991) 453
Aslangul, C., Barthélémy, M., Pottier, N. and Saint-James, D., Dynamical properties of a random walk in a one-dimensional random medium 171 (1991) 47

Bagnoli, F., Rechtman, R. and Ruffo, S., Some facts of Life 171 (1991) 249
Bansil, R., see Koňák, Č. 171 (1991) 19
Barthélémy, M., see Aslangul, C. 171 (1991) 47
Ben-Avraham, D., see Schoonover, R. 171 (1991) 232

De Haan, M., Full quantum treatment of field–matter interaction: a reduced description 171 (1991) 159
De La Rubia, F.J., see Español, J. 171 (1991) 120
Dogterom, M. and Pietronero, L., The angular projection of fractals and its relevance for the galaxy distributions 171 (1991) 239

Español, J., De La Rubia, F.J. and Rubí, J.M., Initial non-equilibrium ensembles: application to the ideal gas 171 (1991) 120
Eu, B.C. and Gan, H.H., On integral equations for the pair correlation function 171 (1991) 265
Eu, B.C., Revision of the modified moment method and a differential form for the compensated part of entropy 171 (1991) 285
Eu, B.C., Response to Banach's analysis of the modified moment method 171 (1991) 313

Family, F., see Lam, P.M. 171 (1991) 223

Gan, H.H., see Eu, B.C. 171 (1991) 265
Geigenmüller, U. and Mazur, P., Instrinsic convection near a meniscus 171 (1991) 475
Genz, U. and Klein, R., Collective diffusion of charged spheres in the presence of hydrodynamic interaction 171 (1991) 26
Georgelin, Y. and Leblanc, Y., Analysis of the reservoir model in thermo-field dynamics 171 (1991) 554
Giró, A., see Trullàs, J. 171 (1991) 384
Güémez, J. and Velasco, S., A probabilistic approach to the site-percolation problem. I. Bethe lattices 171 (1991) 486
Güémez, J. and Velasco, S., A probabilistic approach to the site-percolation problem. II. Standard lattices 171 (1991) 504

Havlin, S., see Schoonover, R. 171 (1991) 232
Hiroike, K., see Tanaka, K. 171 (1991) 350
Hubmer, G.F. and Titulaer, U.M., Heat transfer between a small sphere and a dilute gas; the influence of the kinetic boundary layer 171 (1991) 337

Jeżewski, W. and Tomczak, P., Exact renormalization-group approach to critical phenomena in an Ising system with long-range interactions on the Sierpiński-gasket lattice 171 (1991) 209
Jones, R.B., see Perkins, G.S. 171 (1991) 575

Klein, R., see Genz, U. 171 (1991) 26
Koňák, Č., Koňák, M. and Bansil, R., Dynamic light scattering of particles diffusing within a microscopic cage: model calculations 171 (1991) 19
Koňák, M., see Koňák, Č. 171 (1991) 19
Kopelman, R., see Schoonover, R. 171 (1991) 232
Kornyshev, A.A. and Vorotyntsev, M.A., Electric field of fractal clusters 171 (1991) 98
Kutner, R., Biased random walk on a biased random walk 171 (1991) 43
